To whom it may concern

REFERENCE

March 2011

Since 1996 until now Bautech has been working in the field of construction and outfitting for the facilities of Balkan Star in Bulgaria.

Bautech has carried out the following major civil works:

1. Administration building with 1.500 m². Complete remodeling including all necessary design and construction works, turn-key. Sofia, Bulgaria.
2. Showroom and sales area on two floors with a workshop for passenger cars including leave special lift. Execution as a design and building contract. Sofia, Bulgaria,
3. Building for Administration, workshop and customer contact on two floors. Execution as a design and building contract. Sofia, Bulgaria,
4. Various extensions for the body repair and painting center in 2004, 2005, 2010,
5. Various renovation works for the Engine repair workshop,
6. Turn-key remodeling of the workshops for passenger cars and trucks including supply and installation of skylights.
7. New building of a showroom with a car sales area, administration, workshop for passenger cars and trucks in Plovdiv. Bautech executed the outfitting of the building (all interior works).

Bautech was also involved in different other construction works which are not listed here.

Balkan Star in Bulgaria expresses herewith full satisfaction with the executed works and recommends the company Bautech as a loyal partner who carries out the assigned works on time, with high quality, state-of-the-art techniques and good engineering practice.

Best regards,

Manfred Multz
